

SITE CAPABILITIES

Clinical research, closer to home.

Verexa Health is a physician-led, community-anchored clinical research network. We run high-quality trials inside active medical practices across Metro Detroit, reaching patients where they already receive care.

27,000+

patients reached

11+

community clinics

WHY SPONSORS WORK WITH VEREXA

Rapid study startup

Centralized processes across the network mean feasibility answered in 48-72 hours and streamlined site activation.

Community-based recruitment

Enrollment draws on trusted, long-standing physician-patient relationships in diverse Metro Detroit communities.

PI-led, practice-embedded sites

Experienced investigators run studies inside their own active practices - research alongside real-world care.

Quality and compliance

GCP-trained teams, IRB-experienced operations, and dedicated regulatory and compliance leadership.
